

Renovating the Digital Home

Objective

Create a multi platform solution to provide a simplest way to add and edit the content of the club page. Also, it requires to be responsive, should contain the payment procedure up and running, must be as much as personalizable and connected to the social networks to pull it's news.

Result

Hexad to completely renovate the entire website. Create a modern and responsive website that is super cool and functional.

Challenges

Giving VfL members their own access area so that they can do things digitally from the comfort of their own home.

Solution Highlights

- A modern and complete content management system.
- In the future, the Client can edit, change, update and create the entire content according to our templates. This guarantees maximum flexibility at a high optical level.
